

Subject: 2025 GIC-EFCATS Winter School

Dear Colleagues and PhD Candidates,

We are delighted to announce the 2025 **GIC-EFCATS Winter School on Catalysis**, jointly organized by the Interdivisional Catalysis Group (GIC) of the Italian Chemical Society (SCI), the European Federation of Catalysis Societies (EFCATS), and the University of L'Aquila (Italy).

The School

- **Dates:** January 27-31, 2025
- **Location:** Conference Hall, University of L'Aquila, Italy (easily accessible by public transport, approx. 100 km from Rome)
- **Language:** English

Focus on Sustainable Catalysis

The transition towards a circular economy demands greener and more sustainable catalytic solutions. This Winter School aims to bridge traditional catalysis, photocatalysis, organocatalysis, and biocatalysis, fostering innovation and collaboration to address global challenges outlined in the UN 2030 Agenda's Sustainable Development Goals (SDGs).

Through interactive lectures and discussions, participants will be involved into a range of key topics in catalysis, led by **internationally renowned speakers** from both academia and industry.

Who Should Attend?

This program is especially designed for PhD candidates, but we also welcome post-doctoral researchers, master's students, and young academics.

Registration and Scholarships

Online registration will open on **July 15, 2024**, and includes conference materials, meals, and accommodation. A limited number of full-registration scholarships will be available.

Space is limited, so register early!

Further Information

For more details and registration, please visit our website: <https://www.gic-efcats2025.eu/>

We look forward to welcoming you to L'Aquila!

Sincerely,

Proff. M. Crucianelli and A. Carlone

On behalf of the Organizing Committee
